NUMBER 45

RED CROSS TOWNSHIP QUOTAS

WHERE YOUR RED CROSS DOLLARS GO

The annual Roll Call of the American National Red Cross held each year from Armistice day to Thanksgiving is the season for the enrollment of members in this organization, chartered by Congress and known as the heart of the army and navy.

The question is often asked by an individual "What becomes of the dollar which I give the American Red Cross in return for my membership in that organization?" First of all, fifty cents of that dollar remains in the county where it is collected, to be used by the local Red Cross chapter in constructive community service within the county. The fifty cents that goes to Washington assists in service to disabled war veterans. Approximately \$75,000,000 have been expended by the Red Cross in the care of ex-service men since the close of the World War. The fifty cents sent to National headquarters also contributes toward the services of men of the regular army and navy, to national and international disaster relief, domestic operations, foreign and insular work, the supervision of service activities and general management.

It is evident that the National organization could not exist unless there were millions of people in the United States interested in it, for as President Coolidge stated recently: "The American Red Cross has become an intimate part of our national life. Under its Congressional charter it is a semi-official agent of the Government, but it belongs never-theless to the people." It is, of course, possible to pay more than one dollar for membership in the Red Cross. For example, there are five dollar, ten dollar and twenty-five dollar memberships, but only fifty cents from each of these classes of membership goes to the National organization, the balance remains in the local community to finance local work.

All of the accounts of the American National Red Cross are subject to the most careful scrutiny and audit by the War department and an annual report of its work is made to the Congress of the United States. Every member of the Red Cross can take satisfaction in the knowledge that his contribution exists solely for the purpose of rendering service. The greatest thing in the world after all is doing something for someone else less fortunate than ourselves and this is the aim and substance of the Red Cross.

Every man and woman who can afford to pay one dollar a year will want to become a member for 1926 and feel that by so doing they can also be placed in the ever lengthening

list of "those who love their fellow men."

Crawford county's share of the National Roll Call is 200 members. Besides this we have to raise \$500 for car upkeep and telephone and Health Center rental, which is \$5 a month. Then we have some debts from last year which have to be paid.

The Red Cross paid one quarter of the nurse's salary last year. This year the Board of Education of Grayling school, the Village council and the Board of Supervisors each pay a third.

We believe that when the people understand that we have to raise \$500 besides the \$100 from the memberships, making a total of \$600 that we must raise, that they will gladly be generous at this time.

Our supervisors assisted the Roll Call chairman to equalize the quota for each township. Now please let everyone do their share. If any township can't make it by memberships, put on a play or a social or a dance.

The following is the list of townships and the amounts to be raised by each:

Grayling township	\$300
Frederic township	100
Greene township	50
Isabella township	50
Maple township	50
South Branch township	50

Total \$600

Let's make the 100 per cent in each township.

The names of the people that join and the amount of money received from each township will be published in the Avalanche each week until after Thanksgiving day.

What township will be the first to go over the top? Watch the Avalanche.

Roll Call Committee.

Crawford County Red Cross.

SAGINAW GIVES \$1000 TO EAST MICHIGAN TOURIST ASSOCIATION

Here are two interesting after-math of the annual meeting and the joint dinner of the North Eastern Michigan Development bureau and the East Michigan Tourist association.

The Saginaw county board of Supervisors appropriated \$1,000 toward the work of the East Michigan Tourist association. The Bay County board of Supervisors appropriated \$1,000 toward the cost of erecting the proposed new offices of the two organizations on property leased at a nominal rental from the Pere Marquette railroad company. James R. Snoddy of Onaway, appeared before the Bay county supervisors.

OIL LEASES TAKEN IN ARENAC COUNTY

R. A. Smith, a state geologist, says that the residue of a deposit of oil in Saginaw county has been established beyond question and that the discovery has fanned miniature oil booms in other counties. He says leases have been taken up in Arenac county.

Cinderella

TO BE GIVEN AT THE SCHOOL AUDITORIUM ON

Friday Evening, Nov. 6th

RENO PLEASES LARGE AUDIENCE

2ND NUMBER LYCEUM COURSE MAKES HIT

It would be putting it mildly to say that Edward Reno, the magician, made a big hit when he appeared at the school auditorium on Thursday night of last week, which was the second number to be presented on the Lyceum course, given under auspices of the Epworth League of Michelson Memorial church.

Reno gave one of the finest entertainments of magic ever seen in this part of the country, and in many tricks equalling the great Herman and Thurston. He was constantly springing one surprise after another on his audience, keeping all in a state of breathless wonder and delight. He rendered a great many very clever and almost unbelievable tricks. He used a number of live objects, such as pigeons, ducks and rabbits, much to the delight of the small boy and amazement of the adult. He surely had a lot of things up his sleeve that night and managed to cart them out so cleverly that his audience couldn't see how he did it. Coin-tricks were just duck soup for him; he would grab real money right out of the air anywhere or pour them out of the

kid's nose or get them any other way he chose. And he poured ten coins into the hands of one man in the audience and had him count them and then hold them tight in both hands, and the latter found when he recounted them that he then had fifteen coins. Many other just as mysterious tricks were performed. Thruout his performance he kept up a running fire of comment with which he enlivened everything he did.

Reno is a man of fine personality and with splendid stage presence and is master of his profession.

The next number of the Lyceum course will be the Farnum Trio, December 16th.

FORTY MILLION DOLLARS ARE SPENT IN MICH. HOTELS

"Jack" Anderson, of Port Huron, president of the Michigan Hotel association, declared at the annual dinner of the East Michigan Tourist association and the North Eastern Michigan Development bureau, that the hotel men's share of the money spent in Michigan during 1925 tourist and resort season was \$40,000,000. The forty million conceded as the hotel men's share this season was the total amount estimated as spent in every business channel a few years ago. New estimates of a total expenditure of \$200,000,000 during 1925 give some idea of what the tourist and resort business means to Michigan.

Grayling School Notes

"Cultivated mind is the guardian genius of democracy. It is the only team and to pay their debts."

The Ten Commandments of G. H. S. I—Thou shalt not take thy books or study in vain.

II—Thou shalt not put athletics or societies before class work.

III—Thou shalt not take thy books or study in vain.

IV—Remember the study hour and keep it quiet. Five days a week thou shalt labor and do thy own work.

V—Honor thy teachers and thy school—that they shall not stay thy ninth hour.

VI—Thou shalt not kill time.

VII—Thou shalt not annoy thy teachers nor thy classmates.

VIII—Thou shalt not steal thy neighbor's outline.

IX—Thou shalt not speak falsely of thyself, thy teachers or thy schoolmates.

X—Thou shalt not envy thy neighbor's appearance, marks or popularity.

The maidens here, both young and fair, With diamond rings have made The ten-cent stores, most everywhere Report a rise in trade.

Miss Harrison—"Define an exclamatory sentence."

Grader—"An exclamatory sentence is an exciting sentence."

Many of the seniors appeared rather sleepy Tuesday morning after the late hours spent at their party Monday night.

"Pass me by" says every pupil As the footsteps drawing near, Give us warning someone's after Notes that hardly 'ere appear.

The Athletic association has been selling candy in the halls between classes; they hope to make enough

money to obtain new outfits for the team and to pay their debts.

Our husky football team was once more defeated when they played Alpena, Saturday, the score being 59-0. The boys say that Alpena has nothing on us when it comes to mud.

Miss Harris (in U. S. history)—What makes people unite.

Ernest Larson—Love.

Physical training it bores us so. First it's bend high and then it's bend low.

Slide along gaily, but don't stub your toe.

We play good base ball Yet often some fall;

None have been killed as yet, So why should we cry and regret?

Third Grade

The third grade were studying native trees, including the Norway pine. We took a trip out to the woods and are able to tell a Norway from a White pine. On our way back Mr. Peterson took us thru the laundry and showed us what happens to the clothes as they go from place to place.

Fifth Grade

The five A class has been writing biographies of their own lives, some of them proved very interesting.

Friday we had a party in the gymnasium. Jack Hughes and Woodrue Fitzpatrick received prizes for having the best costumes.

Fifth and Sixth Grades

Martha Sorenson has entered school in the 5-A, after being at Roughton Lake for a month.

Five-A have just completed a sand table on the story of Ali Baba and the forty thieves.

Charles Woods and Claud Morrow have left school and are now attending school in Detroit.

Miss Weir and Miss Thayer's rooms had a Halloween party in the gymnasium Thursday night.

AMERICAN LEGION ENDOWMENT FUND

MARIUS HANSON APPOINTED CHAIRMAN OF DRIVE.

The American Legion Endowment fund drive of which you have read so much in Grayling, the quota expected from the local Post No. 108 being \$325.00. Marius Hanson has been appointed chairman, and for the Post Roy Milnes and Emil Giegling to assist. The boys wish to raise their quota in the least possible time so let's be ready to receive them when they approach us for a contribution. Crawford county has always "Gone over the Top" and will not fail now.

For most of us the war ended November 11, 1918, but for the 35,000 of our disabled comrades lying in the France or Flanders fields, the war-torn men die every day. Fifteen died today, fifteen yesterday and tomorrow as we sit down to enjoy our evening meal fifteen more of these heroes will have gone. "Dead on the Field of Honor," just as surely as those who rest under the little cross in row on row in Flanders fields.

The Endowment Fund is not being raised for the Legion, but for the orphans and the men and women who are suffering and are destitute as a direct result of the consequences of the World War. The American Legion has merely assumed the task and the responsibility of raising this fund and it is the duty of the entire citizenry of this country to help them.

These little orphans, who number 35,000 must not be penalized by want, starvation because their fathers gave their life for our country.

In a few words the Fund is "For those who gave the most." It is a worthy cause and should have the hearty support of all.

LITERARY CLUBS HOLD FIRST YEARLY MEETINGS

Mrs. George L. Alexander was hostess to the Good Fellowship club Monday evening for the first meeting of the year. The president, Mrs. Emil Kraus was in the chair and the following program was enjoyed:

Roll call.
Business.
Reading of Constitution and By-Laws.
Financial report.
President's address.
Report of Federation meeting.
The "Club Woman," Mrs. Alexander.

The Club will meet with Mrs. Lilian Sparkes Monday, November 9th.

The first regular meeting of the women's club was held on Monday evening, Nov. 2nd at the home of Mrs. Alfred Hughes. Mrs. Charles Giegling, the president gave an address and after the business meeting Mrs. Giegling and Mrs. Jarvin rendered vocal solos, accompanied by Mrs. Giegling. Mrs. Robert Robin of Oosso was a guest of the club. Three new members have been added to the club: Mrs. Thomas Cassidy, Mrs. C. J. McNamara and Miss Isa Granger.

The Red Cross will have a booth in front of the Postoffice all day on Armistice day. Come and join.

IF A TORNADO STRUCK THIS TOWN

The Red Cross would be the first to respond.

The past year the Red Cross set a record for service. It gave vital aid in 90 catastrophes ranging from tornado and fire to mine explosion and earthquake.

The Red Cross helps everywhere. Help the Red Cross by your membership.

Red Cross Annual Roll Call November 11-20.

JOIN NOW. A dollar enrolls you.

ANTI-AIRCRAFT REGIMENT NEXT YEAR

202ND. ILLINOIS ARTILLERY TO USE GRAYLING CAMP

A Lansing dispatch published in the Detroit News of last Sunday reads as follows:

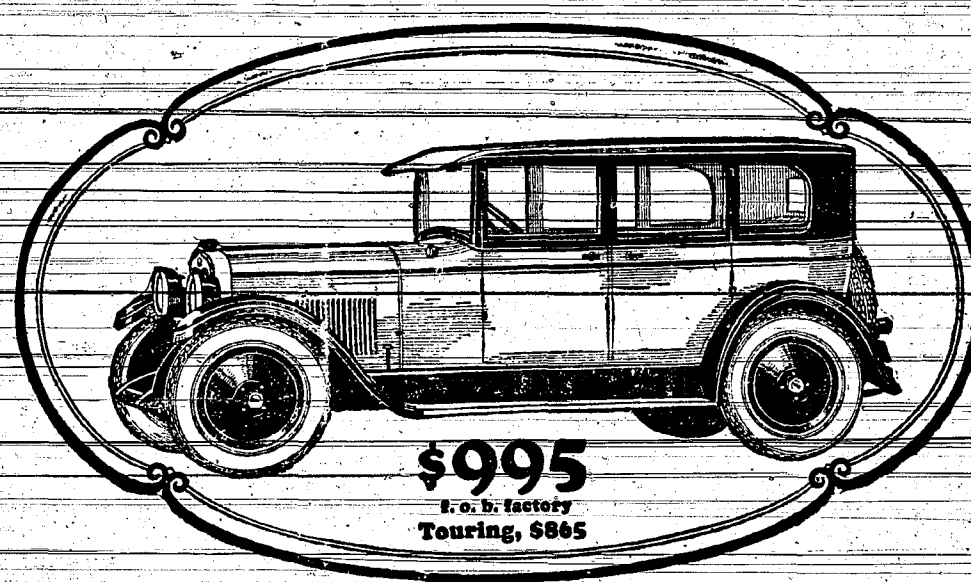

The War Department has under consideration the sending of the Two Hundred and Second Artillery, Illinois National Guard, to the Michigan military reservation at Camp Grayling next summer for anti-air practice. It would be the first army maneuvers of the kind in the state. For these maneuvers about 100 square miles are necessary.

Two regular army officers, Col. Olmsted, of the Coast Artillery and Capt. Mann of the Flying Service, together with Adj. Gen. John S. Bersey, and Col. Frank B. Hawkins, senior instructor of the Michigan National Guard, recently went over a tract large enough for air maneuvers. The tract includes part of the reservation.

It is a tract of nearly barren land on which there are no settlers, which is a matter to be taken into account inasmuch as shrapnel is the ammunition used in aircraft practice. The Two Hundred and Second Coast Artillery's guns are 12 75-millimeters and 16 30-caliber machine guns. The target practice as usually conducted in maneuvers of this kind is to have dummy machines moving at 60 to 100 miles an hour, each towing a dummy machine with a 2,000 foot line. The dummies are the targets the guns fire at.

Something New for Grayling

SOLITE

(REG. U.S. PAT. OFF.)

A Perfect Gasoline

The Standard Oil Company (Indiana) offers to the motorists of this city, something new — SOLITE, a light, fast, volatile gasoline that makes no sacrifice of power.

Solite must not be confused with so-called "high-test" gasoline. It is much better!

Solite does everything that the best so-called "high-test" gasoline will do — but in addition, it drives the piston the full length of the stroke under power.

The Standard Oil Company (Indiana) has never been satisfied to bring out a light gasoline until it could overcome the loss of power feature so common to "high-test" gasolines.

It has overcome this factor by the famous Burton Cracking Process.

Solite is a cracked gasoline. There is no guesswork in its manufacture. It is made to meet exact specifications. It is dependable. We guarantee its uniformity.

Solite will give you a new thrill in motoring. Your motor will start on the instant — it will get away smoothly — it will accelerate rapidly and eagerly — and develop an amazing speed, for Solite is a "fast gas".

Solite has been manufactured for the man who demands a little quicker action and is willing to pay a little more to get it.

Solite sells for 3c per gallon more than the price of Red Crown — our famous economy fuel which produces the maximum of power at a minimum of cost.

Try SOLITE Today

NEWS REVIEW OF CURRENT EVENTS

War Between Bulgaria and Greece Is Prevented by the League's Council.

By EDWARD W. PICKARD

ONCE more the League of Nations has justified its existence. Functioning promptly and firmly, the League council last week compelled Greece and Bulgaria to refrain from warfare, to withdraw the forces that had invaded each other's territory and to leave to the League for settlement the frontier quarrel that had brought them to actual blows and threatened to start another Balkan war.

When the council met in Paris with Mr. Briand as president no time was lost in informing the two small powers that they must submit to its decision, and a short time limit was set for obedience.

The Greeks were sullen and inclined to quibble, seeking to prevent their case at once to the council and to justify their attack on Plovdiv and other Bulgarian towns. But Briand and his colleagues silenced them and declared the council's ultimatum meant just what it said.

There was the plain intimation that disobedience would be followed by a naval blockade of Greek ports. So the representatives from Athens were authorized by their government to promise full compliance with the orders. Bulgaria had given that pledge already.

Investigations were sent at once by the council to the frontier to see that the promises were kept, and an inquiry was begun into the causes of the quarrel by a mixed commission under the auspices of the League.

THOUGH the French in Syria speedily suppressed the revolt in Damascus promoted by the British, they have not yet recovered the circumstances of that suppression have brought forth angry protests from other Christian nations and have aroused the Moslem world almost to the point of starting a general racial and religious war.

General Sarrail's troops relentlessly snuffed the ancient city, destroying the Mohammedan sections and much of the Jewish section that lay between them. Between two and three thousand persons were killed, many of them being Christians and Jews, for according to the protesters of the consulates no warning of the bombardment was given except to the French.

One tank, it is said, traversed the Christian part of the famous Street Called Straight, killing and wounding many before the officer in charge found out that he was on the wrong thoroughfare. British and American claims against France will be heavy.

In Paris there is strong pressure on the government to compel the recall of General Sarrail, who is high commissioner in Syria.

For the present Damascus itself is cowed, but the Druse rebellion is strengthened by the accession of swarms of Mohammedans who fled from the city and by the continual raids by Bedouin bandits. It assumes importance as a part of the great Pan-Islamic movement that is giving the Christian powers serious anxiety.

COL. WILLIAM MITCHELL's trial by court martial for his criticisms of the army and navy air services opened in Washington with all due ceremony, and the abandoned census bureau building in which the proceedings are being held was crowded with a fashionable throng that made the affair look like a society function.

Congressman Reid of Illinois was Mitchell's civilian counsel, and at the outset he sprung a surprise by challenging three members of the court on the ground that they were unfitted by "prejudice, hostility, bias and animosity to the accused" fairly and justly to try the colonel. Brig. Gen. A. J. Bowley and Maj. Gen. F. W. Sladen first were removed from the bench, their brother officers sustaining the challenges. Then Mr. Reid demanded that Maj. Gen. C. P. Summerh, president of the court, should be withdrawn,

asserting that he was prejudiced because Mitchell in 1923 in an official report had severely criticized his (Summerh's) handling of affairs in the Hawaiian department. General Summerh, flushed with anger, said:

"In view of the bitter personal hostility of Colonel Mitchell toward me which I have learned of for the first time, I cannot consent to sit on this court."

The court sustained this challenge, as it had the others, and Maj. Gen. R. L. Howze succeeded to the presidency.

Mr. Reid then, contesting the court's jurisdiction and protesting that Mitchell should not be tried on the charges brought, disclosed that the defense would be based on the claim that the colonel in making his criticisms had committed no offense against army and navy discipline; that he insisted no soldier to mutiny, slandered no individual and named no individuals in his charges, and that he had a perfect right to talk as he did.

The lawyer then quoted this from President Coolidge's address to the cadets at Annapolis last June:

"The officers of the navy are given the fullest latitude in expressing their views before their fellow citizens, subject, of course, to the requirements of not betraying those confidential affairs which would be detrimental to the service. It seems to me perfectly proper for anyone, on any suitable occasion, to advocate the maintenance of a navy in keeping with the greatness and dignity of our country."

Reid's contention was not sustained, and the trial continued.

LEUT. JAMES H. DOOLITTLE, with a little black Curtiss racer, won new honors for the navy and the country in the air races at Baltimore.

First he succeeded in keeping the Jacques-Schneider seaplane trophy in the United States, making the 100 kilometers in the new speed record for the contest of 23,772 miles an hour.

A British entry was second and one from Italy third. Doolittle's plane was the same one which, as a land plane, won the Pulitzer trophy when piloted by Lieutenant Bellis.

Next day Lieutenant Doolittle took the air again in the same ship and drove it over a three kilometer course in the fastest time ever made by a seaplane—23,710 miles an hour—though the conditions were unfavorable.

JOSEPH CAILLAUX's financial program for France was so bitterly opposed that the cabinet declined to accept it and he was urged to give up his portfolio as minister of finance.

This he refused to do, whereupon Premier Painleve and the entire cabinet resigned. The main reason for rejection of Caillaux's program was his opposition to a capital levy. President Doumergue asked Painleve to form another ministry, which he did twice.

He continues as premier and also takes the finance portfolio. Briand remains as minister of foreign affairs and Georges Bonnet is given a new portfolio. That of minister of budget. This new cabinet tends more to the left than the former ministry.

The premier tried to induce M. Herriot, his predecessor, to form the cabinet or at least to take a place in it, but the Socialist leader declined.

CONSERVATIVES regained control of the government of Nicaragua last week when Gen. Emiliano Chamorro, former president, seized the fortress La Loma, commanding Managua, without opposition, being joined by the garrison. He and his associates in the coup then sent to President Solozano a demand that he dismiss the liberal members of his cabinet and restore the liberal party to power.

At first the liberals were disposed to resist and there was some street fighting, but Solozano soon yielded in order to avoid further bloodshed. He himself was protected by constabulary commanded by Major Carter of the American marines. The conservatives claim they lost the presidential election in October, 1924, by fraud.

G OVERNORS of a number of states appeared before the house ways and means committee in behalf of the repeal of the federal estate tax. This, said a White House spokesman, was especially pleasing to the President, who believes that by withdrawing from the field of inheritance taxation, the

Crystal Gazer Sees Much Trouble Coming

Paris.—The year 1926 will be an eventful one, fraught with great world changes, if one can believe the annual forecast of Professor Raymond, widely known French crystal gazer.

Raymond has many followers in France, for it is claimed that he predicted the World War, America's entry into the war, the Lusitania disaster and the death of President Wilson.

Among the professor's predictions for 1926 are these: A terrible catastrophe to a transatlantic liner on the high seas bound for the United States.

The death of an American financier. Greater American interest in European affairs, because of the personal sympathy of President Coolidge, and bankers in Southern and Eastern states.

Standing of international exchange, France, the United States, Great Britain and Germany coming to an agreement which will stabilize the franc.

The professor's crystal also predicts that sugar, copper, platinum and steel will have a bull year.

England has a melancholy 12 months before her, says the professor, for revolution will break out in three of her dominions, and the armies will have to be mobilized to quell them. A great English author will be killed in a railroad accident.

The professor further foresees earthquakes in Italy and China, railroad accidents in France and the United States, a Bolshevik outbreak in the Balkans, and numberless dire events.

Assessing the Federal Government's Revenue

Washington.—The federal government will help make it possible for the states to have their own sources of revenue. Mr. Coolidge thinks there has been too much centralization of authority in Washington and cites as an instance the matter of federal aid for road construction. He would not cut off this aid entirely, but have it limited as nearly as possible to the building of main highways.

Several witnesses representing great interests sought the repeal of the caput stock tax. This was opposed by Undersecretary of the Treasury Winston. Indeed, repeal of nearly every tax in the present law is asked by someone, so it is plain that the committee cannot please all.

IT IS no surprise to find that all those predictions of huge grain exports from Russia due to immense crops had no foundation save the wild talk of Soviet officials, and instead of sending grain to other countries, Russia is actually sure to go hungry again this winter.

The Soviet government committee to prevent famine is busy in Moscow and has decided to lead seed grain and flour to eight districts where report crop failure.

The Moscow Economic Life—the official Soviet economic journal—reports the complete collapse of the selling organization of the Soviet government, formed last summer to buy grain from the peasants. In the Odessa, Ekaterinoslav and Nikolayev districts, where seven organizations purchased grain before the war, Economic Life reports, today there are 170 government agencies competing on the local markets, forcing prices up.

Today, according to the paper, the peasants are demanding prices only \$2 a ton below the Chicago grain exchange.

In connection with the grain purchasing campaign, scores of "relative communists" have been arrested, the paper continues, reporting that grain bribery is rampant and the government is losing huge sums through the poorly organized and inefficient grain purchasing department.

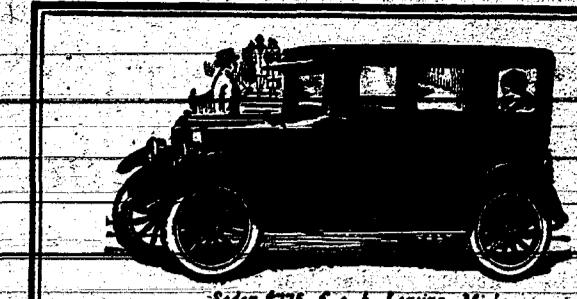

ITALY'S mission is now in Washington for the purpose of funding the Italian war debt to the United States, which amounts to \$2,000,000,000. Secretary of the Treasury Mellon and other members of the American debt commission have made a careful study of Italy's financial and economic condition to help in reaching a conclusion as to her capacity to pay.

Concerning the French debt, Chairman Borah of the senate foreign relations committee writes to the president of the Illinois Manufacturers' association saying that without specific authorization from the American people, congress has no right to "unload" the foreign war debts on the taxpayers of the United States. He says the money loaned to France was obtained from the American people under a very specific pledge that the loans would be repaid with reasonable interest.

CHARLES P. TAIT II, of Cincinnati, son of the former President and present chief justice of the United States, was elected permanent chairman of the International Young Men's Christian association convention in Washington. He is a lawyer and only twenty-eight years old, the youngest man ever chosen for the position.

President Coolidge opened the convention with an address and Herbert Hoover and other notables were among the speakers. He heard. The secretary of commerce struck a rather doleful note in asserting that by-products of the war and results of our great prosperity are "a weakening of moral fibre, loosening of family and home ties, youthful criminality, the easy breaking of law by adults, the growing intolerance, a leaning upon the state without a corresponding willingness to bear its burdens, waste and extravagance."

WHEN the international court of justice at The Hague took up the dispute between Great Britain and Turkey over Mosul, the Turkish government sent a telegram declining to present its case because it would not submit to arbitration of the matter by the League of Nations council if the court should so direct. The Turks insist the question is political and so not properly before the court. The case for Great Britain was presented by Attorney General Sir Douglas Hogg and other lawyers.

Economy

"But isn't it expensive running a country house every summer?"

"No, I save money. We can't get help to stay out there and my wife has to do it all her own work."

Success Rules

There are success rules for every finisher. Every person who gets ahead recognizes consciously or unconsciously, four rules for success: First, he makes up his mind; second, he's happy and keeps at his work; third, he studies and thinks; fourth, he finishes what he starts.—Grit.

Shave With Cuticura Soap And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no slimy soap, no germs, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.—Advertisement.

Verification

Officer—Say! You can't swim there! Bathing—I know I can't. I'm drowning!

The hand that follows intellect can achieve.—Michelangelo.

DEMAND "BAYER" ASPIRIN

Aspirin Marked With "Bayer Cross" Has Been Proved Safe by Millions.

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years.

Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

Conservation

"Your wife says you can't keep anything from her."

"She is mistaken. I have a quarter inside the lining of my vest at this very moment."—Judge.

Conquer Constipation with Yeast Foam!

For constipation try this: drop a cake of Yeast Foam in a glass of water; let stand for five minutes; stir with spoon; let settle and drink the milky water, including the white precipitate.

Do this regularly and your constipation—no matter how long standing—will be a thing of the past! Yeast Foam is equally effective for indigestion, biliousness, lack of weight and strength. Or, if you prefer, eat the yeast with a cracker or a piece of butter.

SAMPLE CAKE FREE

Send for FREE and POSTPAID your book "Dry Yeast as an Aid to Health" also a sample of Yeast Foam without obligation.

Help for Hypochondriac "Chuggins" doesn't seem to be as sickly as he was.

"No, he has quit complaining. His new motor car has done wonders for him."

"Fresh air and that sort of thing?"

"No, his mind is so taken up with his engine and his tires that he hasn't time to think of his anatomical equipment."

A pleasant lie is always more welcome than a disagreeable truth.

Reciprocity

"What is your opinion of the European situation?"

"I decline to say," answered Senator Borah. "People in Europe used to say they couldn't understand American politics. I now consider it my privilege to admit that I can't understand European politics."—Washington Star.

Best of all psychologists is a man's conscience. It knows and he knows it knows.

FOR THE WHITE TOP BAND

'Chief'

Extra High—All Rubber Overshoe

JUST the shoe you have been looking for—the five-buckle height is added waterproof protection in mud and snowdrifts. There's cozy warmth in the thick, fleece lining. No need to scrape and injure the uppers—they're cleaned in a jiffy under hose or pump. No odors or soil are brought into the house.

"Nebraska" is the same shoe in a four buckle height.

"Caboose"—called the "World's Best Work Rubber" because it actually outwears two and three pairs of ordinary rubbers. The biggest rubber value on the market—built like all Converse Shoes for extra wear. Look for the "Big C" on the sole—it will mean a real saving this winter.

Ask your local dealer

CHILDREN CRY FOR Fletcher's CASTORIA

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

Deserved His Drink
During the luncheon interval at a country golf match, the refreshment stand was besieged by a hungry and thirsty crowd. The girls behind the stand were doing their best to cope with the situation, but one man, waxing impatient at the delay in being served, attracted the attention of one of the girls by shouting to her, "Heard the story of the mines?"

"No, I haven't," retorted the girl.

"And I don't want to just now."

"Well, you've been listening to it for some time," replied the man; "mine's a chocolate soda."

Nervous Girl
"You say that makes you think of a canoe. How?"

"It takes so little to upset her."

It doesn't fatten a hungry man to make him laugh.

FOR Rheumatism

ASPIRIN

Proved safe by millions and prescribed by physicians for

Rheumatism Colds Neuritis Neuralgia Headache Pain Toothache Lumbago

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark of Bayer Manufacture of Monacopolitane of Salzig.

Once a Trial Always Nyal

GIVE A LITTLE EXTRA EFFORT.

Here is an infallible recipe, as the women say in letters to the household editor, for keeping your job and keeping your customers: Do just a little better than your employer or your customer expects.

If you do this, and if your employer or your customer continues in business, you will always be on the payroll or on the books.

Giving just a little more than the man who pays expects is such a simple direct and effective means of insuring not only a livelihood, but also advancement, that we are eternally surprised it is not universally adopted.

Doing the job extra well oils every movement of the business-machinery. It is easy to collect the money for a job well done. It is easy to get another job from a well pleased customer. It is easy to ask a favor of a customer whose disposition has been sweetened by extra effort.

Why do not more people act on this bit of common wisdom? If you can answer that you can also tell us why some people blame everyone and everything, except themselves, for their failure to get ahead.

A SENSE OF HUMOR

The principal of a progressive school asked the parents of her pupils what they would like their children to be at the age of eighteen.

Almost all parents have very high ideals for their children. Among the replies were such phrases as "insatiable intellectual curiosity," "keen joy in living," "well grounded in the three R's," "a sense of social responsibility."

All writers overlooked one important point: a sense of humor.

We do not know that a sense of humor can be implanted in a boy or girl who lacks it, but certainly a sense of humor can be cultivated. Too often a sense of humor is repressed by parents and teachers who fear that a sense of humor is not "nice."

We are convinced that a high percentage of children are born with a keen sense of humor. To us, this is one of their most delightful qualities. The unrestrained laugh of a child is the most beautiful thing in the world. Some parents will not let their children read the comic strips in the newspapers. We think this is a mistake. We pass all the comics over to our children, just as soon as we have read them ourselves, and later we enjoy hearing them review the troubles of Jiggs and the Gumps.

Furthermore we are convinced, thru numerous experiments, that an appeal to the sense of humor is the most effective means of correction. Proper table manners, proper care of clothes, proper posture, and all the other proper things a child is expected to do, can be taught by an appeal to the sense of the ridiculous. Show a boy how you would look if you conducted yourself as he does, and he will reform more quickly and more permanently than if you punish him.

The only danger with this system is that the children progress so fast that the parents have trouble keeping up with them. This is probably the reason why this system was not adopted long ago. The department of many parents cannot stand the laughing reproof of a child who has been encouraged to express his sense of humor.

All are agreed that modern civilization is extremely complex and artificial. It is a strain on the nerves, on the temper, on the instincts. The ideal sedative is a sense of humor. Civilization can be saved, if it is saved at all, not by democracy, not by idealism, not by the League of Nations, but by a sense of humor.

No man is really civilized unless he can laugh at himself.

If the schools can cultivate the sense of humor, and produce for this nation a new generation with a keen sense of the ridiculous, what a lot of silly, useless institutions will crumble away within the next fifty years.

FORD CARS POPULAR ALL OVER THE WORLD

Highways and byways all over the globe will soon be dotted with a new line of Ford cars. And curiosity will be just as keen when the improved Fords appear on the streets of Paris, Berlin, Rome, Copenhagen, or Yokohama as it was along Fifth avenue or Hollywood Boulevard. The Ford car, familiar in most every country on earth, will soon give way to the improved and better looking Ford.

With output rising to new records in this country, Ford plants throughout the world also are getting into production with improved cars. Distribution to dealers and customers is already under way in several countries.

The Ford Motor Company of England, Ltd., began production on the improved cars at the Manchester plant October 10th and England was given its first view of these cars.

France, Belgium, Spain, Holland and the Scandinavian countries are just beginning to receive the improved Fords as production is now under way at the plants in Antwerp, Barcelona, Bordeaux and Copenhagen. Germany also is beginning to receive Ford cars which are shipped from the Copenhagen plant. Shipments are on the way to the Trieste plant and it will not be long before the new Fords will be on the roads of Italy.

The first cars for South America have been shipped to the Company plant at Santiago, Chile, for distribution to dealers and other South American plants will go into production in November. The Ford plant at Havana, Cuba and the plant at Mexico City, Mexico, will soon be distributing cars to dealers.

The Orient will have its first glimpse of the improved Ford cars most any day now, as shipments of parts for assembly have just been received by the Ford Motor Company of Japan, Ltd., at Yokohama.

The Ford Motor Company of Canada and the British Colonial possessions have been in production with the new cars for some time and has started shipping to Ford plants in New Zealand, Australia and South Africa.

REFLECTIONS

If men can be misled, then they can be led.

If we know ourselves we are pretty well informed.

Is anything more beautiful than a child's laugh?

The most difficult jobs look easy until you try to do them.

A good orchestra doesn't make poor cooking taste any better.

We suspect a lot of fellows are surprised that they get along as well as they do.

And the only man who can really fill another man's shoes properly is a good shoe clerk.

Anyone who waits for times to get normal before doing something will never do anything.

Excessive taxation is a good way to keep the home fires from burning under the factory chimneys.

Improvements come and improvements go but life goes on forever in much the same old way.

HEADS MERCHANTS

An especially posed portrait of Herbert J. Tilly, president of the National Retail Drygoods Association, who appeared before the house ways and means committee on tax revision questions.

BUSINESS IS GOOD, SAY LEADING BANKERS

Signs Indicate Prosperity Will Continue at Least a Year.

Chicago.—Prosperity is here and all signs point to a prolonged stay. This was the opinion of noted forecasters of business conditions who spoke at the semiannual meeting of the Robert Morris Associates, national organization of credit officers of various banks at the Drake hotel.

Signs within the vision of Dr. David Friday, former president of the Michigan Agricultural college, indicate that prosperity will be continuous for at least a year. Doctor Friday pointed to the restoration of the purchasing power of the farmers, good employment conditions for labor and an active building program.

Manufacturers who have complained because individual orders for merchandise have been running smaller were given cheer by Ralph Van Vechten, vice president of the Continental and Commercial National bank. Largely because of the efficiency of transportation, merchants are no longer obliged to carry as heavy stocks as formerly, Mr. Van Vechten said.

The tendency of commodity prices to hold at the present level, he added. There is no disposition or necessity to hoard commodities, he said. Mr. Van Vechten also struck a warning note that bank credit men by watching events can guide a doubtful situation along until all tendencies toward inflation have vanished.

U. S. to Ask France to Pay for Damascus Losses

Washington.—Protection for American lives and property in Damascus and all parts of Syria has been asked of the French government in representations made by Ambassador Herrick in Paris, it was learned here.

It was also hinted in official circles here that as soon as a statement of the losses suffered by Americans during the bombardment of Damascus by the French are sent to this country, reparation for the damage done will be asked of the French government.

Reports received here disclose that French nationals were the only people warned of the approaching bombardment.

Bandits Attack Armored Auto; Escape With \$90,000

Buffalo, N. Y.—Six desperadoes attacked a Bank of Buffalo armored car, killed the driver, seriously wounded a guard and a messenger and escaped with \$90,000. When the bank car stopped at the Bank of Buffalo entrance and bank employees began to remove the currency, two robbers who had been standing near the entrance opened fire. The other gangsters began firing at the same time from the robbers' automobile parked across the street. After shooting the three bank employees the bandits gathered up the money and fled in their car.

Anti-Fascist Mob Routed by Police in New York

New York.—Police reserves repelled an attack by a mob of 400 persons, said to be members of the Anti-Fascist Alliance of North America, upon the Hotel Pennsylvania where 600 members of the Italian Fascist League of North America were holding a dinner.

The attackers were driven back from the hotel area by 250 policemen and detectives.

Bulgar Premier's Kin Slain

Vienna.—Danesco Tzankoff, brother of Premier Tzankoff of Bulgaria, was shot and killed in Sofia while walking in the street. Dispatches from Sofia describe the motive for the crime as unestablished. The slayer escaped.

Named Indian Viceroy

London.—Edward Frederick Lindley Wood, minister of agriculture and fisheries, was appointed viceroy to India to succeed the earl of Reading, who retires in April.

Earth's Temperature

The earth is like a steam boiler jacketed with a layer of asbestos, the central portion, whatever its nature, occupying about three-quarters of the earth's radius, with an outer shell of rocks. If this is so, it will take at least a hundred thousand million years for the internal temperature to fall to half of what it originally was.

We're no longer satisfied to be paid what we're worth—we can't live on any such amount.

MRS. STILLMAN SUES BANKER FOR DIVORCE

Infidelity Is Charged by New York Woman—Husband Denies Allegations.

New York.—Mrs. Anne U. Stillman has at last begun a fight to win her freedom from James A. Stillman. Summons and complaint in an action for divorce on statutory grounds were served on the banker more than a month ago, it was learned.

In taking the offensive against her estranged but not divorced husband, Mrs. Stillman will use against Mr. Stillman the evidence which she brought out during his vain effort to divorce her and illegitimize Guy Stillman, the son of Fred K. Beauvais, French-Canadian Indian guide. It was said that no witnesses might be called, the plaintiff introducing merely a certified copy of the record of the famous suit.

Mrs. Stillman was secluded in her home at Grande Anse, Quebec, with the nearest telephone fifty miles distant.

The action will be tried in Westchester county.

Mr. Stillman, it was said, has entered an answer to his wife's complaint, containing the usual denial of the allegations set up.

Fighting her husband's action five years ago, after a somewhat belated start, Mrs. Stillman met the banker's

Mrs. Anne U. Stillman.

attack by setting up an affirmative defense. In her affidavit she charged that Mr. Stillman had miscondemned himself with Mrs. Florence H. Leeds and that Jay Ward Leeds, then a baby of about the same age as Guy, was the banker's son.

Mrs. Leeds' real name, charged Mrs. Stillman, was Florence Lawler, who had left a Broadway show for sudden affluence.

The issue of Stillman vs. Stillman, which seemed ended two weeks ago, when the last costs were settled, was launched by Mr. Stillman on July 18, 1920. During the long litigation the one-time president of the National City bank has paid attorney fees of \$90,000 to his wife and expended in addition hundreds of thousands of dollars.

Paintive Forms Cabinet; Halts Debt Settlement

Paris.—M. Paintive completed the formation of his new cabinet, taking the portfolio of finance minister himself in addition to the premiership.

With M. Paintive as finance minister, negotiations for settlement of France's debt to the United States are almost certain to be held up. M. Paintive does not regard the settlement of the American debt as important as the other financial problems confronting the government. Therefore he will try to solve these problems before taking further action on the American debt.

Declares Business Frauds Cost \$250,000,000 a Year

Chicago.—Declaring that commercial swindling in the United States cost \$250,000,000 last year, J. H. Tregoe told the National Association of Credit Men here they must raise \$750,000 in addition to \$1,045,000 recently obtained to fight commercial crime.

At the credit men's meeting, held in the Hotel Sherman, Mr. Tregoe, executive director of the association, declared that bankruptcy rings in many big cities are responsible for numerous losses.

No Peace Prize This Year; Nobody Worthy of Honor

Stockholm.—Koradniska Institute, the medical high school of Stockholm, whose Nobel committee has the selection of the Nobel prize, has decided this year not to give the prize, reserving its decision until next year. This decision means that the candidates proposed are not worthy of the honor.

Order Again Deports Reds

Washington.—The secretary of labor has issued a warning ordering John C. Schadel of Fort Wayne, Ind., deported from the United States. He was deported in 1920 on the ground of being an officer in the Communist party and returned unlawfully.

Japanese Prince Is Ill

Tokyo.—The Imperial review and imperial banquet was suddenly canceled on account of the poor health of Prince Regent Hirohito.

Once Gentle Toothpick

When toothpicks were first introduced into England from France and Italy centuries ago their use was considered a mark of gentility. To show themselves possessed of such an instrument men of fashion wore them in their handkerchiefs.

Made Cattlefish Useful

Early Romans made black ink out of the liquid from the cuttlefish.

GUARANTEED

It was the third time the hawkster had descended the area steps, and Mollie, the kitchen maid, had half consented to buy a watch.

"But," she said, "my young man says I ought to have a guarantee with it."

Not a whit dismayed, he wrote out a guarantee to keep the watch to repair for one year.

"Sign it," he commanded.

She did so—London Tit-Bits.

RUNNING

"I hear your son has gone in for track work at college."

"I don't know, but he certainly is running an awful hole in my bank account."

Brake Was Missing

Lies slumbering here.

One William Lake;

He heard the bell;

But had no brake.

In

A stranger entered the outer office of a pretentious suite and inquired: "Is the boss in?"

"I will see him," said a courteous clerk.

Returning he reported: "Yes, the boss is in about \$40. If you will give me your card I think he would welcome the chance to leave the game."

A Wise Crack

A Scotsman went to the grocer's for some eggs.

"How much are these eggs?" he asked.

"Twopence halfpenny each," answered the boy; "a penny the cracked ones."

"Crack me a dozen," said the Scotsman.—London Tit-Bits.

No Nonsense

Sailor's Wife—So you'll be back in four years, will you?

Sailor—Aye, but I may be a bit late on this trip.

Sailor's Wife—Well, if you are, don't let's have any of your old excuses about the ship going down and 'aving to walk home.

A Bit Too Willful

First Flapper (discussing the older generation)—Are your parents reasonable?

Second Flapper—Oh, they're reasonable enough, if only they would let me give them the benefit of my experience.

Agricultural Talk

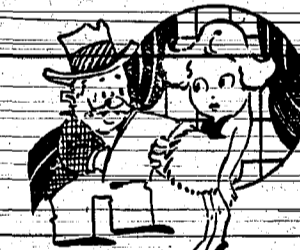

"Five seeds more."

"These are ten berries."

These sounds came from the dining room.

"The dear man," chirped a bride in the parlor. "How interested they are in their gardens."

PAY DIRT

Reporter—Would you marry for money?

Actress—Not me. There's a heap more in settling branch-of-promise cases.

Tried to Pass

Down in the creek

Sleeps Jerry Bass;

The bridge was narrow

He tried to pass.

Quarrel Brewing

Tones—Sorry old man, that my hen got loose and scratched up your garden.

Smith—That's all right. My dog ate your hen.

Awkward

Black—Can you tell me how to get rid of a mole?

Green—Hit it on the head with a hammer, or something. Have you tried poison?

Black—No. The mole I'm speaking of is on the end of my nose.

Antique

Sprightly—Spinster—This piece of lace on my dress is over fifty years old.

Bored Visitor—Oh, it's so beautiful. Did you make it yourself?—Good Hardware.

Physical Marvels

Exchange—Without moving a muscle he handed me the card.

Without moving an eyeball we saw him.

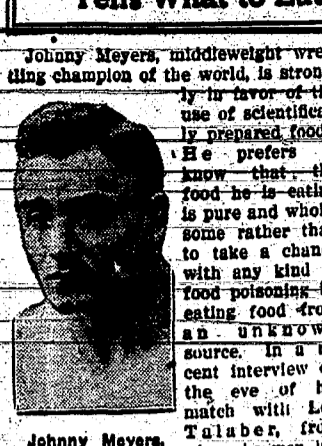

Facts About Falls

If a mouse fell down a mine shaft of 1,500 feet it would merely hump itself on landing, give itself a shake, and run away. A man would break his bones, whereas all that would remain if a man or a horse had a similar adventure would be a splash.

Scraps

Irishmen (accused of fighting)—I like fight. I would sooner have a fight than my breakfast any morning.

Champion Wrestler Tells What to Eat

Johnny Meyers.

Johnny Meyers, middleweight wrestling champion of the world, is strongly in favor of the use of scientifically prepared foods. He prefers to know that the food he is eating is pure and whole some rather than to take a chance with any kind of food poisoning by eating food from a unknown source. In a recent interview on the eve of his match with Lou Talaber, from whom he won his

crown, he said: "I expect to win the crown from Talaber. He is a fine wrestler and uses more science than any man of the mat today. However, I feel sure that my superior physical condition will prevail and that I will emerge victorious and the champion of my division. Diet is a very important part of my program in training for a match. The system that I use is really very simple, involving only good judgment and caution in the selection of food. I prefer to eat scientifically prepared foods whenever possible and I never eat anything to which is attached the slightest doubt of its purity. I eat a great deal of canned foods because I am sure that they are pure and will have no ill effect on my digestive system. I take just one example of what food can do for the body—milk. It is the greatest of body builders and a very important part of any man's diet. But it is sometimes impure or contaminated and may be the source of illness if used because of this fact, I use evaporated milk entirely and find it very satisfactory. I know that it is pure and that I will not suffer from its use. I know that it is a great body builder because the concentration of it gives it such food value. I know that it is easily digested, more so than market milk. In fact, because I drink it before going to bed and feel no effects of it in the morning. This is usually hard to do with ordinary market milk. This plan, in substance, is the same one that I use regarding other foods. If there is any chance or suspicion of impurity or low food value, I use something else.

And if a man is so situated that it is impossible for him to get the proper amount of exercise, he must be doubly cautious not to partake of any but the purest food. On the whole, if a man eats with wisdom and observes the fundamental rules for good health, there is no reason why he should ever have a sick or uncomfortable day."

Expected Gifts Listed

In China, a betrothal takes the form of a bridal contract, and a category of expected wedding presents is solemnly inserted in the contract that binds the engagement; but the Chinese would very much resent having this stipulation considered a "price." In Japan, it is the custom for the bride to give gifts to the bridegroom's family and there are many other interesting forms of intra-marital exchange of presents.

What has become of the old-fashioned father who used to chase the suitors home at 11 o'clock?

It now looks as tho the long looked-for Indian summer had arrived. November 1st dawned bright and warm and that brand of weather has continued ever since. The sample is fine and here's hoping it lasts the whole month.

Grayling American Legion Post will celebrate Armistice day next Wednesday, November 11, by giving a dancing party at the High school gymnasium. The proceeds of the party will be for the Endowment fund. Plan to be attending. Schram's Ramblers will play.

Mrs. Hans Petersen, accompanied by her son Victor and daughters, Mrs. Nina Petersen and children, and Mrs. James Olson and daughter, June of Oxford arrived home Monday afternoon. Mrs. Petersen, who has been ill for some time suffered a relapse while in Detroit and has not been very well since. Mrs. Tope will remain in Grayling for the winter with her parents, while Mrs. Olson will be here for a couple of weeks.

If you contemplate getting engraved Christmas cards, please place your order promptly and avoid any possible disappointment. The assortment now is complete and there will be no trouble to get just what you want. Later the engraving department is swamped with orders and there is always danger then of delay. Call and see our lines, or phone and samples will be sent to your home, and you will at no time need to feel obligated to buy. Avalanche Office, Phone 1112.

Dr. and Mrs. C. R. Keyport returned home Monday afternoon from a two weeks trip to New York, where they attended a convention of New York Central railroad surgeons. There were about 200 in attendance. Side trips were taken to Montreal, Quebec and other Canadian cities, where they were privileged to visit the universities and large hospitals of Canada. The doctor says he had a most profitable as well as enjoyable trip. Another feature that added to the pleasantness of the trip was a visit to New Brunswick, N. J., where they spent a day with Mr. and Mrs. C. M. Morfit and family, former well known residents of Grayling. On their return to Michigan they took in the Michigan Navy foot ball game at Ann Arbor, and also visited the new University hospital there.

New Rubbers sewed on your old leather tops at Olson's.

Why not try a part load of fine 16 inch bundled edgings along with your shippings to start the fires with on these wintry mornings. No extra charge. All deliveries strictly cash. KERRY & HANSON FLG. CO.

Just a Little Smile

A German cook who loved to sleep in the morning wanted the scolding mistress of her intention to leave for America.

"Over there," she said, "the sun rises much later, and when it is already midday here it barely begins to dawn in America! I shall be able to sleep a couple of hours longer!"—London Answers.

Impossibility

"The minister suggests," remarked the flapper's mother mildly, "that you girls give as much time to religion each day as you do to primping and pleasure."

"How absurd!" exclaimed the flapper scornfully. "Surely a man of his education should know that there aren't 48 hours in a day."—American Legion Weekly.

A NEW VERSION

Editor—You can't get by with that joke. That's an old Pat and Mike wheeze.

Jokesmith—But don't you see how I've improved it? I've changed the names from Pat and Mike to Martin Luther and Oliver Cromwell.

Salesman - Florida

The largest land company operating in the State of Florida has just opened its 43rd office in Detroit.

This company is not offering Florida land for sale in the State of Michigan, but is broadcasting the idea that residents of Michigan visit Florida and investigate conditions at first hand.

We are offering a special de luxe Pullman service to Florida and return at a nominal rate.

The salesman who can sell one ticket a week can earn \$1,000 a month. If you can qualify as to integrity, standing and sales ability, you can have the biggest paying job you have ever known—red hot leads furnished to producers.

Don't write if you are broke or want a drawing account.

Trainer of Boxers Gives Diet Hints

To Kid Howard of Chicago and his new system of training and conditioning, Sammy Mandell, the present lightweight boxing champion of the world, gives a great deal of the credit for his meteoric rise to stardom in the world of pugilism.

When Mandell first started fighting, he was small, weak and undeveloped, but after turning himself over to Howard it was only a short time before he took the decision from Sid Terris of New York that resulted in him being recognized as the boss of the lightweight.

Sammy Mandell, Howard's system is unique in that it works no hardship on the athlete who is in training. Unlike the systems that have been used for years, this prominent and successful trainer of men makes conditioning more of a pleasure than a disagreeable necessity. Instead of demanding that his men eat only certain things he advises them to eat what they want and when they want it as long as it is cooked in a proper manner. Mr. Howard, in a recent interview on the subject of diet and condition, said, in part: "Years ago it was a task, and an unpleasant one, for a boxer or a wrestler to train for a bout because he was forced to literally starve himself unless he wanted to eat steaks and chops at all times. I remember that when I was training for a match, I was so truly tired of steaks that I choked every time that I ate one but it was steak or nothing. I advised my men to diet at all times but it is perfectly possible for them to diet and, at the same time, to enjoy their food. My only 'don't' is the one regarding the eating of such combinations as fresh milk and cheese, and fruit with cream. In fact, I advocate the use of evaporated milk entirely. Vegetables are fine and the more the athlete eats the better he will be for it. Pastry, of certain kinds, such as homemade pies, cakes and cookies, if made correctly, and with pure butter, evaporated milk and pure lard, are very beneficial. Steaks and bulls are ideal. Taken as a whole, any food with a few exceptions, is all right if properly cooked and eaten without purging."

And one has but to look at Howard who is the most religious user of his own system, to realize that it is a success.

A Carving Business

"That young woman with all those jewels carved out of her own fortune," "Nonsense. She's an ex-chorus girl. She didn't carve out her own fortune. She married a millionaire."

"Yes, but think how many other chorus girls she had to cut out to marry him!"

Extra Urn Suggestive

Kriss—So you felt uneasy while courting that little widow?

Kross—You bet. She kept the ashes of her late husband right on the piano.

Kriss—Oh, that isn't so terrible.

Kross—Maybe not. But I didn't like the looks of the extra urn.

RED CROSS YEAR A RELIEF RECORD

Huge Relief Work After Midwest Tornado the Greatest in American Annals

DISASTERS DROP IN 1925

Ranged From Fire to Earthquake and Covered Wide Area at Home and Abroad.

Virtual completion of the largest peace-time project of post-disaster rehabilitation ever known has been accomplished by the American Red Cross in less than a year, as a part of its relief work in the more than 90 disasters in which it served in the past year.

This great program was undertaken following the tornado which struck five mid-western States last spring, killing 796 people, injuring 2,239 more, and causing incalculable property loss. It left a huge area of devastation in its wake, presenting a real problem to the Red Cross, however, went to work on the heels of the storm, caring for the injured, sheltering and feeding whole communities, and helping every individual sufferer from the destruction back to normal.

The magnitude of the problem is indicated by comparison of its huge casualty list with that of the entire preceding year, whose combined losses were 735 dead and not quite 2,000 injured, as a result of the record number of 192 catastrophes.

The story of the Red Cross service in the past year, recounted by the report, ranges from fires heading the list of destructive forces with 29 disasters to mine explosions, tornadoes, typhoons, floods and earthquakes.

The Santa Barbara earthquake was among the outstanding events recorded in the report. The Red Cross had completed its relief organization on the scene within a few hours of the disaster, and in addition had launched a program designed to permanently restore every person affected by it to his former status once more.

The Red Cross service in the period following the wreck of the Navy air ship, "Shenandoah," was typical of its promptness and effectiveness. Service in this instance was afforded by Red Cross chapters in the vicinity of the wreck, and by representatives of the national organization. It demonstrated graphically the value of each of the more than 3,000 chapters of the society which are at work in virtually every part of the country, in the facility they afford the national organization in emergencies.

There were 61 domestic disaster operations reported in which the Red Cross rendered service either through chapter or national staff personnel during the year. In 34 of these the national organization appropriated a total of \$3,047,256.49, the greater portion of which was received as direct contributions for the relief of specified disasters. The relief operations following the northern Ohio tornado of June, 1924, were brought to a close in May, 1925, after an arrangement had been made with the Lorain chapter to provide expert services to the families of any tornado sufferers who required such assistance in the next two years, as finally accounted, reached a total of \$1,049,751.33.

The mid-western tornado of this year, covering a strip of territory 400 miles long involved an expenditure up to June 30 of \$774,000, while the total amount turned in to the fund through the agency of the Red Cross was \$2,645,000. In addition to this sum specifically collected for the purpose, the Red Cross had expended from its regular reserves \$124,000.

In all these disasters, Red Cross workers have been impressed by the spirit of determination and hopefulness shown by the people. Once they recovered from their grief and bewilderment, they began at once to rebuild, materially and otherwise, and always on a better scale where possible.

Another significant feature of these occurrences, as noted in the report of the Red Cross, was the promptness with which the local chapters organized emergency relief before help could be received from outside sources. A direct effect of their example has been to stimulate disaster relief preparedness among chapters all over the country.

The services of the American Red Cross are performed invariably in the name of the American people. On the effectiveness of this representation during the past year, it will launch the ninth annual roll call this year on November 11, to continue until Thanksgiving, November 28, during which support through membership will be invited for 1926.

What becomes of Red Cross Sweaters? What becomes of the sweaters which the American Red Cross has asked for? In the first place, they are needed for the 30,000 disabled veterans still in hospitals this winter, the garments being in great demand. The surplus left from the war has been exhausted since the Armistice, hence the new call for the sweater-knitters to resume their needles, a call already being met.

The American Red Cross serves in your name; you can make it more effective by adding your name to its membership during the Roll Call Nov. 11-26.

Gas Makes People Nervous

Gas pressure in the abdomen causes a restless, nervous feeling and prevents sleep. Adierka removes gas in 20 minutes and brings out surprising amounts of old waste matter you never thought was in your system. This excellent intestinal evacuant is wonderful for constipation or allied stomach trouble. Don't waste time with pills or tablets but get REAL Adierka action!

GUARD 687,000

GAME ANIMALS

Forest Service Workers Report Increase in Number.

Washington.—More than 687,000 head of big game animals make their home in Uncle Sam's 153 national forests, announces the forest service of the United States Department of Agriculture, which has just completed the compilation of a count made in 1924.

Compared with the previous year the 1924 figures represent an increase of about 44,000 head after due allowance is made for 44,300 head of deer which were not included in estimates of former years.

Forest service officials explain that this increase may be caused by the fact that 1924 was a very dry year, resulting in an unusual concentration of animals around watering places which enabled the forest rangers to make closer estimates. Only animals using national forest ranges are included, no account being taken of animals which graze on adjacent federal lands or on privately owned areas.

Deer represent the vast bulk of the game animals with a total of 550,000 compared with 511,200 in 1923.

The five states credited with the largest number of deer are, in order: Kentucky, Oregon, Montana, Idaho and Arizona. Alaska is credited with about the same number—50,000 head—as the last two.

In the 1924 estimates bears were included as game rather than as predatory animals, the figures showing 44,300 head. Of this total 38,700 were of the black and brown varieties, 5,600 being grizzlies. Nearly all grizzlies were found in Alaska. Montana is the only state in which the forest rangers were able to find more than a scattering few of this bear.

Which represented more than 62,400 head being listed for 1924 compared with 49,500 in 1923. In the Teton National forest bordering the Yellowstone park the elk herd has shown a notable increase.

The number of moose in 1924 shows a loss; only 5,100 head being shown compared with 5,000 in 1923. It is explained this difference may be attributed in large part to more accurate estimates. The number of mountain goats is given as 12,400 and 17,200, respectively, a slight increase of buffaloes are to be found only in protected herds.

Antelope, or pronghorns, are still in a very unsatisfactory condition. The 1924 count shows only a few more than 5,000 of these animals, most of which are in Arizona and Idaho.

Fear Dam Will Erase Indian Rock Relic

Philadelphia.—The threatened obliteration of the famous Indian rock in the Susquehanna river at Conowingo by the construction of a huge dam for electric power at that point is raising protests from many groups.

Hieroglyphs, said to be the oldest Indian writing in America, are written on this and other rocks of the region. Members of the Smithsonian institution and other scientific groups have asked that these "prehistoric chicken tracks," relics of aboriginal life in America be preserved. Interest has been aroused to such an extent that the Susquehanna Power company has offered \$5,000 to aid anyone who will change in their removal or preservation.

Mystery and romance of prehistoric rocks surrounding the picture-scattered Susquehanna, built submerged in the river, which have not yet been deciphered, add to the appeal for their preservation. In the face of the insistent demand for "more power" on the part of modern industry, which has made the building of the dam necessary.

The chief relic, Indian rock, even now is not always visible to human eyes. It is one huge block of granite, a solid islet of rock in the middle of the Susquehanna, and is about 20 by 30 feet in size. Only at low water can it be seen, and it can be located only by boatmen who know the river well.

Built in Day

Bulaski, Va.—Walker's Creek church, about eight miles north of Marion and built in a day, was dedicated the other day. More than six hundred attended the service. The church is a frame building, erected at a cost of approximately \$3,000.

Proud of Tree

Auburn, Maine.—The largest maple tree in the state of Maine is in the door yard of the Hurd homestead at Fryeburg harbor. The circumference of the tree one foot from the ground is 28 feet, and at the smallest part of the trunk it is 22 feet around.

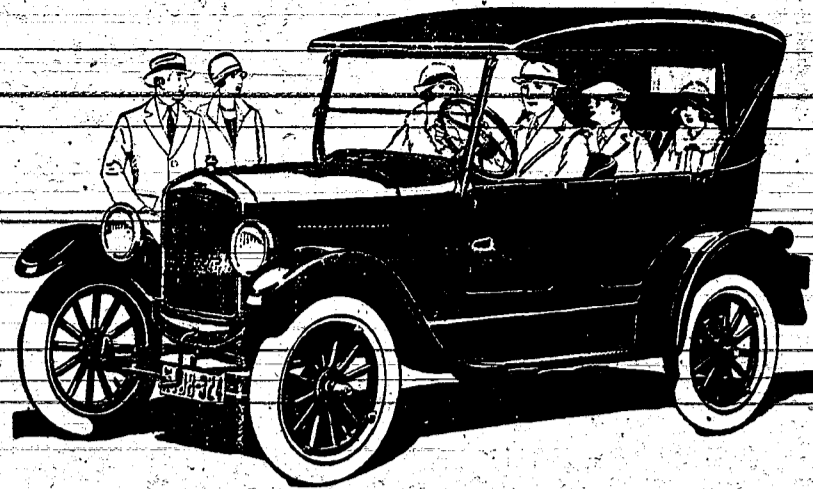

Anglers Must Wear Labels in Oklahoma

Oklahoma City.—Unlabeled fishermen became taboo in Oklahoma recently. Hereafter they must plainly display upon their clothing the state license, without which they cannot drop bait to hungry fish.

The last legislature, concluding that fish and game wardens should expect co-operation from the men they are set to watch, passed a law that fishermen must bear the license pinned or sewed in the center of their outer garments.

VARIED PROGRAM FOR CHICAGO LIVE STOCK EXPOSITION

A program which will appeal to everyone, young or old, country or city dwellers, has been prepared by the management of the International Live Stock Exposition for the thousands of visitors who will attend the show in Chicago November 28th to December 5th. Many new features have been added this year, according to Secretary Manager B. H. Reide, making the coming exhibition by far the most complete and interesting ever offered to the public.
